MADE IN KOREA

Ecopowerpack is an innovative and environmentally dashcam battery for permanent operate your black box.

Ecopowerpack prevents the discharging of main battery, perfectly.

It can be used continuously 60 hours to about one hour charge. (Based on two-channel black box, 400mAh.)

This is charged directly at the generator. Without affecting the vehicle battery, rather extending the life of the battery.

Ecopowerpack poses no risk to the vehicle's main battery. Ecopowerpack prevents damage caused by a vehicle malfunction, such as the battery discharges.

Your black box is operating, only while driving?
 The accident occurred not only while driving but also while parking.

Typical dash cam attachment

- ❌ Influenced by the vehicle battery
- ❌ Power off when you turn off the car ignition
- ❌ If the bad condition of the battery can not be taken
- ❌ If the black box to always-on mode, the main battery is being discharged

Dash cam with Ecopowerpack

- ✅ Without affecting the vehicle battery
- ✅ 24 hours, 365 days available video recording
- ✅ Dashcam is operated using a spare battery, so the fuel consumption is reduced
- ✅ There is no risk of discharging the vehicle
- ✅ This is a very suitable for vehicle that attached ISG system

This is the Essential reasons to use dashcam battery. Ecopowerpack keeps your car everytime.
